

How Balto Is Changing Insurance Conversations

Balto Customer's A/B Test Results

We conducted a 14 week A/B test with reps at a large insurance firm to measure the difference in performance between Balto users and Non-Balto users. After analyzing 10,000+ calls, here is what we found:

15%

Increase in Conversion Rates

7.8%

Increase in Rep Ratings

7.7%

Decrease in Avg. Handle Time

About Balto

Powered by AI, Balto analyzes speech on both sides of the call to instantly deliver critical information to reps while giving management insight into every conversation.
